'Lovely Professional University is the largest single campus university in India, with more than 25,000 students, 3500 faculty and staff, offering more than 200 programmes.

The university is recognized by University Grant Commission (UGC) and is member of coveted Association of Indian Universities (AIU) and has 50+ foreign tie-ups for equitable and affordable quality education.

The university campus exhibits a rich diversity as the academic staff and students come from all the states of India and more than 26 countries in the world. Education at LPU is a holistic one, aimed at developing the intellectual and personal strengths of students. LPU has an excellent track record of launching its students onto successful careers which has been proved by our Alumni presently working in 300+ global and Indian Super Brands.

Taking a step forward in our further progress, LPU is providing an opportunity to students for identifying their true potential and strengths and be capable of choosing the most suitable career for themselves. In order to achieve academic excellence, the career that the student chooses becomes very important and taking the first right step in this direction becomes crucial, in which, the idea of 'career assessment test' will help the students in choosing the best option.

In this era, when vast varieties of career options are available to the students, it becomes all the more important to choose the best career according to their aptitude, personality and other factors and thus, be empowered to achieve the desired objective.

With the wide range of career options available with LPU whether its technical, creative, managerial etc, the student is free to choose the career of his/her choice. LPU provides ample opportunity for students to pursue and fulfill their dreams of a promising career along with providing overall personality development to them.

We wish all the best to the future leaders and expect that this initiative of LPU will properly guide them in choosing the best career and be successful in life!

The Importance of this Assessment

Discover the most appropriate Subjects Stream

We cannot find wiser words which resonate with our philosophy than the following from Mark Sullivan who headed the United States Secret Service till 2013.

"To find a career to which you are adapted by nature, and then to work hard at it, is about as near to a formula for success and happiness as the world provides. One of the fortunate aspects of this formula is that, granted the right career has been found, the hard work takes care of itself. Then hard work is not hard work at all."

These words have been proven right time after time and the General Aptitude Assessment has been designed to assist you in selecting the most appropriate career pathways which suit not only your aptitude but also your temperament and natural propensities. The purpose is not to merely build a career but also to build a life that is fulfilling, rewarding and joyful.

WHY?

There comes a time in each student's life when he or she has to make a choice between subjects and streams which will eventually shape not only the career but also the life ahead. Very often the choices are made on the basis of factors that are extrinsic and not intrinsic.

1. The choice is **imposed** by parents or relatives
2. The choice is **influenced** by current and projected trends – engineering, accountancy, medicine, management, etc.
3. The choice is **determined** by what others including peers are opting for. The suggestions are normally considered 'safe' choices.
4. The choice is **inspired** by role models

But look at the achievers in the world and it is not difficult to notice that people who have succeeded are the ones who have followed intrinsic factors:

How to interpret your Commerce API Index

The graphical representation below indicates your **Aptitude + Passion + Interest Index (API)** for each of the Commerce Domain Clusters. The assessment is based on a weighted assessment of parameters critical to each cluster.

A High API Index (towards the green zone) indicates a high intrinsic potential for excellence and achievement

A Low API Index (towards the red zone) indicates a need for realigning your effort and preferences as you may find it a bit challenging and may be not engaging enough.

A Median API Index (somewhere in the middle) indicates a 'Can DO' scenario where you may wish to invest effort and resources depending upon your ultimate career progression plan.

Your ACES Personality Profile

Your personal distribution of scores on the ACES Personality Test is an indication of your unique Personality. Management Perspective

Preferred Style

sahil prefers roles where there is public recognition of ability and where there is minimal control or supervision. She enjoys working with people, coordinating programs and orchestrating activities. She flourishes in a favorable work environment which is informal and creative because she prefers group activities. She can be a gifted orator and a brainstormer, motivating and influencing others to achieve. She will work enthusiastically and maintain a good support base to get things done but will need to stay focused on goals.

Communication expectations:

sahil expects management and others to specify what is expected of him and how they would want things to be done. Thereafter she prefers to work with need for minimal supervision or interference. She may not react favorably to any change in her priorities but will accept suggestions and gentle persuasion because she finds it difficult to oppose people. She is a good listener and relates to team members instinctively. Others also find him very approachable. She is good at resolving conflicts between others but will tend to avoid conflict, confrontation or unpleasant situations himself.

Motivational Needs:

sahil has a need for being noticed and appreciated and is thus motivated by recognition of her abilities. She is a good motivator of people and can use her powers of influencing others to get things done. She prefers to take popular decisions and maintain her popularity at the work place. She is motivated by freedom of expression and public recognition. She can be frustrated by rejection by others and if her achievements are not highlighted.

Your Voyage ...Our Beacon

E Commerce Cluster

Dear sahil

Thank you very much for taking our Second Level Aptitude Assessment Test and we sincerely hope that it would help you in making the right choice of subjects to study during the rest of your years in school within the Commerce Stream.

This would give the right thrust and direction as you prepare to enter the collegiate level of your education. The world around us is constantly evolving and new opportunities arise with each passing year.
